Nursery & Landscaping

## ***Aloe vera* or *Aloe* Care & Planting Guide**

**There are no warranties on house plants. However our staff is happy to assist with any additional cultural questions.**

There are **no returns** on **discounted** plants or any tropicals.

**Keep your sales slip.** Sales slip or other proof of purchase must be presented to receive credit.

Store credit or exchanges must be made within 24 hours of purchase.

### **CARE:**

**Temperature:** Warm to Average Warmth minimum 50°F

**Light:** Bright Direct- Medium Indirect

**Water:** Water thoroughly and allow the top 1" of soil to go dry in-between waterings in the Spring and Summer– In winter water thoroughly but allow soil to go dry in-between watering. Use water that has been sitting out for 24 hours.

**Air Humidity:** No misting necessary

**Bloom:** Yellow/ Seasonal bloomer

**Repotting:** Only repot plants in the Spring every 3 years. Do not repot plants in containers that exceed more than 2" diameter greater than the old container. For example: If you are repotting 4" houseplant it should be re-potted into a 6" container.
