There are **no returns** on **discounted** plants or any tropicals.

Keep your sales slip. Sales slip or other proof of purchase must be presented to receive credit.

Store credit or exchanges must be made within 24 hours of purchase.

CARE:

Temperature: Average Warmth minimum 60°F

Light: Bright indirect light

Water: Keep moist at all times but do not keep roots soggy

Air Humidity: Mist leaves frequently

Bloom: Blooms can last for several weeks. Bloom typically occurs from Spring to Autumn.

Repotting: Only repot plants in the Spring every 2 years. Do not repot plants in containers that exceed more than 2" diameter greater than the old container. For example: If you are repotting 4" houseplant it should be re-potted into a 6" container.
