There are **no returns** on **discounted** plants or any tropicals.

Keep your sales slip. Sales slip or other proof of purchase must be presented to receive credit.

Store credit or exchanges must be made within 24 hours of purchase.

CARE:

Temperature: Average Warmth minimum 55°F

Light: Medium to Bright Indirect Light

Water: Water thoroughly and keep moist in Spring and Summer– in Fall and Winter allow top 1” of soil to go slightly dry. Use water that has been sitting out for 24 hours.

Air Humidity: Mist leaves often.

Bloom: Not significant

Repotting: Only repot plants in the Spring every 2 years. Do not repot plants in containers that exceed more than 2” diameter greater than the old container. For example: If you are repotting 4” houseplant it should be re-potted into a 6” container.
