There are **no returns** on **discounted** plants or any tropicals.

Keep your sales slip. Sales slip or other proof of purchase must be presented to receive credit.

Store credit or exchanges must be made within 24 hours of purchase.

CARE:

Temperature: Average Warmth minimum 50°F

Light: Bright Indirect Light– Medium—Low Light

Water: Water thoroughly and allow soil to go dry in-between waterings– in Fall and Winter water once a month. Use water that has been sitting out for 24 hours.

Air Humidity: Not Necessary.

Bloom: Not significant

Repotting: Only repot plants in the Spring every 3+ years. Do not repot plants in containers that exceed more than 2" diameter greater than the old container. For example: If you are repotting 4" houseplant it should be re-potted into a 6" container.
