There are **no returns** on **discounted** plants or any tropicals.

Keep your sales slip. Sales slip or other proof of purchase must be presented to receive credit.

Store credit or exchanges must be made within 24 hours of purchase.

CARE:

Temperature: Warm to Average Warmth minimum 60°F

Light: Medium Indirect—Low Light

Water: Water thoroughly and allow the top 1" of soil to go dry— in Fall and Winter water sparingly. Use water that has been sitting out for 24 hours.

Air Humidity: Mist foliage occasionally.

Bloom: Not significant

Repotting: Only repot plants in the Spring if necessary— this plant is slow growing. Do not repot plants in containers that exceed more than 2" diameter greater than the old container. For example: If you are repotting 4" houseplant it should be re-potted into a 6" container.
